YOUR LEOPARD. YOUR WAY!

LEOPARD

Versatility is built into the Leopard, enabling you to add or remove seating throughout its lifecycle. Which means the Leopard delivers more ways for you to maximise efficiency and profitability.

- **Flexible seating:** 12.2 to 12.8m long with up to 59 passenger seats in standard configuration with dual tracks to accommodate high capacity, 3+2 seating up to a maximum of 72 seats plus courier seat.
- **Ideal for interurban routes,** short duration touring, day hire and high capacity applications.
- **New variant available** incorporating a double door to the centre, enabling faster passenger boarding and unrivalled wheelchair access.
- **Stainless steel body structure** for a lighter, yet stronger and even more durable vehicle.
- **Incorporating leading edge technology** to minimise unladen weight, maximise fuel efficiency and increase available payload.
- **Contemporary cabin finishes** with layouts which deliver maximum capacity with optimum comfort.
