

ELITE

THE SHAPE OF THINGS TO COME

ELITE

SOPHISTICATED DESIGN / INTELLIGENT VISION

Influenced by the very best in classic and contemporary design, the Elite's iconic styling is designed to take passenger travel to new levels of sophistication and comfort. Both the exterior and the interior deliver a premium travel experience for exceptional passenger satisfaction.

Superb hospitality

The Elite has a bespoke three way servery - including sink, storage and electrical outlets - and optional choice of appliances. All of this helps the crew offer first class hospitality on the move.

- 1 Forward entrance steps
- 2 Disabled access option
- 3 Iconic styling
- 4 Spacious washroom
- 5 Comprehensive servery
- 6 On-board entertainment
- 7 Flexible seating arrangements
- 8 Individual overhead controls
- 9 Ergonomic driver's area
- 10 Electric mirrors
- 11 Outstanding visibility

Iconic style

The Elite's distinctive profile is positively head turning and at the same time highly fuel efficient. Designed with a sweeping aerodynamic frontal aspect, the unique panoramic styling offers a new approach to passenger visibility while providing the driver with class leading vision for enhanced safety.

Exceptional visibility

First impressions count – and the Elite offers a stylish, wide entrance, enabling easy disabled access and guaranteed to impress your customers every time. Theatre style front seating with an open frontal aspect provides passengers with a panoramic view of their surroundings.

Superior passenger experience

Different length variants can accommodate from 51 up to 63 passengers with maximised passenger legroom and multiple seating and hospitality configurations. Individual passenger seats feature three-point seatbelts, leather pad and piping and adjustable footrests. A stylish, streamlined luggage rack houses individual overhead controls for the advanced air conditioning system. An integrated 19-inch motorised widescreen LCD or fixed 18.5" monitor is supported by an audio visual system for high quality on board entertainment. Even the washroom features a modern, stylish design.

Safer, easier driving

A panoramic, electrically heated windscreen, adjustable mirrors, powered screen blind, heated driver's power operated signalling window, integrated satnav and reversing camera are all standard features. Ergonomically positioned controls, fully adjustable deluxe driver seat, driver air conditioning, binnacle mounted gear selector and an easy to read dash panel enables effortless operation.

ELITE SPECIFICATION

Elite: Lengths 12.6 / 13.2 / 14 / 15m; width 2.55m; height 3.7m.

Framing

Jig built, welded stainless steel structure meeting the requirements of EU R66 governing rollover strength. All frame surfaces below the waistline are treated with primary anti-corrosion protection and the vehicle is undersealed in a two stage process.

Exterior Panels

The single piece composite main side panels are bonded to the main structure. The 14/15m variants have pneumatically operated, parallel lift main locker doors, hinged side access panels and wheel-arches. The 12.6m and 13.2m variants have the choice of parallel lift locker doors. All locker doors are aluminium framed with single piece aluminium skins. The GRP front and rear panels are bonded to the main structure. The removable GRP front corners have vertically hinged light panels behind; for ease of access to the lights for bulb replacement.

Exterior Features

Wide, power operated, outward opening plug entrance door with double glazed upper and integral kerb windows. Offside, outward parallel opening, secondary door.

Glazing

Tinted, double glazed side windows. Two piece horizontally split laminated front screens, heated with acoustic and heat insulating laminate interlayer. Double glazed rear window. Double glazed driver's side window with heated, power operated, single glazed signalling window. Two lift up roof vents.

Exterior Lighting

Halogen pinpoint headlamps (optional Xenon lights), LED daytime running lights, combined LED indicator and side-lamp units. Single, side mounted LED indicator repeater lamps, LED position markers to the front and rear roof dome corners and LED rear lights.

Interior Comfort

Vinyl, anti-slip floor covering throughout. Soft touch coated dash, decency screens and driver's partitions. Fabric soft trim to side casings and parcel racks, centre ceiling panels trimmed in contrasting soft fabric, deep interior parcel racks with aircraft style doors trimmed in soft touch material. Individual passenger service units supplying ventilation, reading lights and optional call buttons, full length LED interior lighting with nightlight facility and additional entrance area and stepwell lighting. Perimeter convector heating to the saloon with full climate control. Theatre style seating configuration including reclining extra wide seats trimmed in moquette with leather inserts and piping, adjustable footrests, retractable armrests and Universal type three point inertia reel seatbelts. Maximum seating capacities: 12.6m - 51; 13.2 - 53; 14m - 59; 15m - 63. Reclining crew seat.

Passenger Features

Wide opening entrance door, contoured three step GRP entrance with option of wheelchair accessible entrance, compact servery located in centre of vehicle with hot and cold drinks, rubbish bin and cup-holder (not with rear washroom), step edge lighting to all entrance steps, additional LED downlighting to front entrance steps, sunken centre mounted washroom and fresh water W/C with integrated vanity unit.

Driver Comfort

A newly configured driver's environment and dashboard area in GRP with a range of finish options. An ergonomically designed instrument layout incorporating chassis manufacturer's standard instrument binnacle and positive location electrical switchgear controlling vehicle functions. Premium audio and video system with 18.5" fixed and 19" motorized front mounted monitor options. Digital Smart Audio unit with radio and multimedia inputs. Driver seated mounted microphone and crew microphone, first aid kit concealed in the dash compartment, driver's drink holder and storage tray, premium air-suspended driver's seat, storage locker behind the driver's seat, dash mounted storage compartment, electrically operated driver's blind, integrally mounted reverse camera with dash mounted monitor and driver and crew 12v accessory socket.

Additional Features*

Front foglights, LED digital clock with automatic time updating via GPS and W/C status indicator, either handed emergency mirror, driver's air conditioning and DAB digital radio.

* Items subject to individual vehicle specification.

Optional Extras

Mobility Awareness – Wheelchair accessibility, front, rear and side TRN and destination displays, equal height entrance steps, additional interior grab handles and accommodation for ticket issuing equipment.

Pre-heater – With digital timer and automatic low fuel level cut off.

Enhanced Entertainment – Further enhanced options to meet specific requirements are available.

Seats – A range of seating options and specifications are available.

Washroom – Rear, floor level W/C, fitted in lieu of centre demountable W/C.

Servery – Rear mounted, three way servery available. Compact servery with fridge and hot drinks (only with rear, floor level W/C).

Fridge – Second fridge to dash with 64-can capacity in lieu of storage locker.

Lighting – Xenon headlamps including headlamp wash facility.

Doors – Saloon level secondary exit door with slide out step arrangement certified to ECWVTA Regulations.

Please ask for further details on all of the above.

We're with you all the way

When you invest in a new Plaxton coach, you're also investing in the top-quality aftersales service which has become a hallmark of Alexander Dennis. Our Customer Support Network is dedicated to keeping your vehicles where they belong – on the road, earning money.

The Coach Customer Support Operation is staffed by people who understand the coach business. They realise the importance of a quick response, whether it's ensuring that a vital part is delivered promptly to your workshop, or attending to a vehicle breakdown. Roadside support is provided 24/7 by a network of UK and European service agents, managed and monitored by our dedicated control centre team.

We have paired up with our official glazing partners, Bus & Coach Glazing, who provide an unrivalled glass replacement service with teams covering the UK.

For parts and service Alexander Dennis Customer Support provides the back-up you need, when you need it and fast.

Continuous development is a policy of Alexander Dennis Limited. We reserve the right to change specifications at any time without prior notice. For the latest details always consult Alexander Dennis.
